D-Day Photography Report

Following the recent D-Day Commemorations and visit of Princess Anne an enquiry was made to the photographer of the Lord-Lieutenant, regarding the possible use of their pictures.

We received the following reply:

‘Thank you for your kind enquiry.

There are 47 images in the gallery of the D-Day 80 Beacon Lighting event. On the last occasion in 2022 I supplied the Bembridge PC with a memory stick containing a smaller quantity of web resolution images. I can supply all of these latest 47 images on a similar basis for £150.00.

The recent royal visit gallery has many images. Can you please enquire of your committee exactly which images are needed. You will appreciate that royal images have a different value particularly for those appearing in the photo!

The Princess Royal gallery on www.isleofwightlieutenancy.org.uk has many images some of which have been already sold to individuals. If you click on the “i” icon the file number will appear.

The Beacon set is straightforward, but I look forward to receiving more detail from the royal set to enable me to provide a reasonable quote for your local requirements’.

The images can be viewed by following the link above.

Thank you,

Mark Rochell

Clerk/RFO.
