- 6 - MINI SOCCER U9/U10 PITCHES (7v7) - 55m x 37m

- PARKING
- PERIMETER PATH
- 3G ACCESS

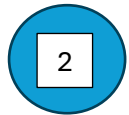

The following are projects that have been identified by the Steyne Park Regeneration working group as possible projects based upon the feedback from the Steyne Park User Survey.

The Parish Council should assess and discuss each project in order to confirm its agreement that, subject to full costings, each project should be included in the agreed overall plan for the proposed regeneration of Steyne Park.

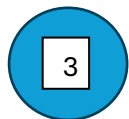

3G 9-a-side Football Pitch

Situated on 'Old School playing field' adjacent to current Basketball Court. Will require permission from IoWC.

Resurfaced and relined Basketball/Tennis/Futsal court

To resurface over existing basketball court, renovate current basketball equipment and reline to include a tennis and Futsal court. To also include enclosing with fencing and gates.

New Changing Rooms and Public Toilets

Demolish existing changing rooms and build a new facility to include accessible toilets for sports teams and possibly public toilets (see option 4).

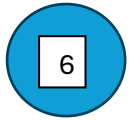

New Community picnic area

To provide a relandscaped picnic area incorporating new seating areas and a drinks/ice cream kiosk plus new public toilets.

Extended Car Park

Demolish old toilet block and extend car park to provide extra parking spaces.

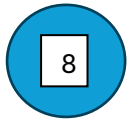

New playground area

Brand new extended playground area to incorporate the space where current adult gym is located.

Perimeter Path

Creation of a perimeter path around the entire park with the aim to improve access for walking, jogging, cycling and disability access.

Trim Trail

To be situated alongside perimeter path to provide exercise sites around the path.

New Pump Track

To replace the current skate park.
