Resolved: To recommend that IoWC Planning Authority GRANT the application as it meets BNDP Policy D.2. However, the BPC feel that the plans were not clear and hold reservations regarding flat roof, but acknowledge existing flat roof and similar designs in area.

5. Planning decisions to date.

Review of spreadsheet of planning decisions to date.
Reviewed.

6. Island Plan Consultation

To discuss and agree Parish Council's response to the new Island Plan consultation.

Resolved: BPC would like to comment as follows on the Island Planning Strategy proposed changes consultation:

- Housing Shortfall – BPC object to the number of houses required by the national government as this target fails to take into account the unique circumstances of the Island and the historical difficulties faced with regards to house building.
- Sustainability Appraisal - BPC strongly favour sustainability but fear that due to over complexity there will be a lack of evaluation and management moving forward.
- Policy C11 – BPC disagree with national guidance.
- Affordable Housing Viability – BPC feel that the division of the Island is arbitrary and these changes will lead to fewer affordable houses at the lower cost scale.
- Ancient Woodland Buffer - The BPC believe that the Buffer Zone should be at least 50m and extended to AONB SSSIs etc. 'National advice' only specifies a minimum of 15m, there is therefore no reason why the IoWC cannot maintain a buffer zone of 50m as recommended by Natural England. BPC strongly object to this proposed change.
