| Proposal A: Refurbish the existing basketball court to include resurfacing and multi use court lining to allow sports such as basketball, futsal and pickleball. To include enclosure of the court and upgraded lighting. On a scale of 1 to 10 (with 1 being lowest level) how much do you support this proposal? |                                       |

| 5  | Will take up too much area with fencing around. It's lovely being open and spacious. Who will maintain the nets etc.?                                                                                                 |
| 10 | But not with nets around it.                                                                                                                                                                                          |
| 8  | I have seen people using it and they appear to enjoy themselves. Not sure about it being enclosed, it's better open. It would be costly and I personally feel it would not be needed. They use it fine at the moment. |
| 7  | I would rather it be open and not enclosed. Make it more open.                                                                                                                                                        |
| 9  | I assume the enclosure will be open to all, at all times to be used by the community.                                                                                                                                 |

| 1  | Lighting? Bad news for everything except humans. Plastic surfaces? You must be joking!                                                                                                                                |
| 10 | All lighting must have an agreed cut off time to stop light pollution annoying the neighbours.                                                                                                                        |

| 10 | This needs to be supervised, gates locked and unlocked at certain hours and even a booking system to avoid unwanted use                                                                                               |
| 5  | More lights in general would be good                                                                                                                                                                                  |
| 10 | Inclosed , lit and resurfaced would be amazing                                                                                                                                                                        |
| 10 | New lighting and an enclosed court would be fantastic and give the community somewhere to enjoy or practice team sports of an autumn evening when the nights get dark earlier and outdoor life becomes less available |

| 10 | Having the court available for racket sports would be excellent                                                     |
| 10 | Would like to try pickleball                                                                                        |
| 7  | Pickleball sounds good                                                                                              |
| 8  | If pickleball, be good to have free lessons/sessions for locals to join                                             |
| 7  | Like the idea of Pickleball                                                                                         |

| 10 | No current racketball courts to rent in bembridge                                                                   |
| 8  | I play pickleball and have to travel.                                                                               |
| 9  | Pickelball may be appealing to adults as well as children (my 83 year old dad plays it). Plus maybe walking netball |
| 1  | Keep to basketball and pickleball. Futsal is noisy                                                                  |

| 3  | What about non ball sports? This is very masculine and focus on an older millenials mans view of what is wanted. Where os space for art, thatre,   |
| 10 | conversation or net ball or dance or hanging out amd playing guitars                                                                               |
| 4  | more parking within the park would ease problems on Steyne Road and with added facilities this will likely worsen during events.                   |
| 5  | A decent park apparatus for teens to play too and desperate ly needs a decent skatepark for the youths if the community because there's            |
| 8  | nothing for them to do and this is a growing active sport they can meet, socialise , exercise and be out n about like they should be               |
| 10 | 3g would be better but good idea                                                                                                                   |
| 1  | It could do with being a full size 11x11 footbal pitch                                                                                             |
| 10 | It will be good to have footpaths and trees for the environment and more for older children.                                                       |

| 9  | Also padel ball courts                                                                                                                             |
| 1  | Padel court should also be a priority                                                                                                              |
| 5  | Needs more seating around the whole area.                                                                                                          |
| 3  | Personally improving the play park would be first priority. The basket ball tarmac area is at least somewhere they can go to rollerskate and learn |

| 8  | My preference and a better revenue stream is below.                                                                                                |
|    | More public toilets would be good as there's only one toilet per each sex.                                                                         |
|    | Not as essential as an all weather pitch                                                                                                           |
|    | Ensure the centre hedge line is protected. This is an important hedge with many species                                                            |
|    | CCTV is needed and more shaded areas                                                                                                               |
|    | It would be nice to take my dog to some grassy space                                                                                               |
